EVODOCK

FIRST IN INNOVATION

# EVODOCK

## LIGHT, SAFE AND ELEGANT

Gottifredi Maffioli is **delighted to present the brand new EVODOCK**, the ultimate solution for innovative mooring lines for MegaYachts, a tapered single piece with two different sections: H.T. Nylon for stretch and Dyneema® for high breaking loads.

Thanks to its unique construction with blended materials, we have developed a Dyneema® mooring line that does not require any additional stretcher or tail.

These new lines are **extremely light, safe and elegant, ideal for the worlds largest MegaYachts.**

## TAPERED MOORING LINE

STRETCHER DIAMETER	STRETCHER STRENGTH*	TAIL DIAMETER	MINIMUM OVERALL STRENGTH*	EYE LENGTH	STRETCHER LENGTH
26 mm	18200 daN	20 mm	16380 daN	0,9 m	4,5 m
30 mm	22000 daN	23 mm	19800 daN	1 m	5 m
35 mm	28500 daN	26 mm	25650 daN	1,1 m	5,5 m
40 mm	35000 daN	30 mm	31500 daN	1,2 m	6 m

\*The values reported in the tables are average values, measured on eye-spliced samples of new product and in laboratory conditions at normal room temperature (approx 25°C) and are subject to change without prior notice. Usage and exposure to natural agents may reduce the breaking strength. FOR MORE INFORMATION, PLEASE REFER TO OUR WEBSITE [WWW.GOTTIFREDIMAFFIOLI.COM](http://WWW.GOTTIFREDIMAFFIOLI.COM)
